BOOK SOME TIME AT YOUR LIBRARY

Your local library has partnered with the British Columbia Securities Commission (BCSC) and the Investor Learning Centre (ILC) to provide you with books and other publications to help you become a smarter, more prudent investor.

The BCSC and the ILC believe that the best investor is a well-informed one. Whether you undertake your own investing or work with a financial adviser, the person most interested in your investments is you.

Each year, the commission investigates scams and dubious schemes in which investors lose millions of dollars. The best way for you to avoid becoming a victim of such frauds is to keep informed and Investigate Before You Invest!

The following books have been donated to 250 libraries throughout the province. Look for these titles at your library.

ILC Publications:

How to Invest in Canadian Securities

How to Read Financial Statements

The Bottom Line Guide to Investing

What Every Canadian Should Know About Family Finance

What Every Canadian Should Know about Mutual Funds

Investment Terms and Definitions
